## Testimonial: Access to Export Ltd

7<sup>th</sup> September 2016

To whom this may concern:

Some 5 years or so ago, we secured a major export contract for a set of ships marine electrical switchboards outside of the EU (Algeria). The manufacture of the goods was the easy bit for us, but I have to say dealing with the export side including export licence enquiries, shipping documents and foreign letters of credit, filled us with trepidation.

Chris Willers (Managing Director) of “**Access to Export Ltd**” was recommended to us by our bank as someone who may be able to assist and assist he did.

From that first phone call, Chris seamlessly took everything under his control and now handles all our export requirements globally, including items such as letters of credit, arranging all shipping/freight documentation, certificates of origin & export licence enquiries if required etc.

I would not have any hesitation in recommending the services of “**Access to Export Ltd**”, to any company facing the same export concerns we had.

Yours faithfully,

W.M Sawyer  
Managing Director
