Access to Export Testimonial.

What we like about using Access to Export is that Chris Willers and his team happily deal with all the technical and bureaucratic problems of Letters of Credit and export of our goods to customers in territories such as India, China, Korea, Qatar and Greece.

We have been using them since we appointed a distributor in India in 2011 when they came very highly recommended by another UK based manufacturer of microscopes. Since that time our business in India has grown steadily, and we have had no problems with importation into India and, more importantly, payment thanks to Access to Export.

Whilst we sell all over the world, into more than 40 countries, we are by no means experts in all aspects of exporting which is why we value the help and support that has always been so readily given by Access to Export.

Adrian Corbin

Business Services Director.
