Access to Export Ltd

We first began using Chris Willers of Access to Export Ltd in April 2003. Since then they have assisted us with regular export projects and are considered as an extended member of our team. It has been invaluable to call on Access to Export to manage our letter of credits, export license enquiries and to prepare all our other required export documentation.

Chris has also been invaluable in organising actual physical exports and imports for us and has been particularly skilled in arranging the correct duties to be applied to our sometimes tricky shipments from the Far East.

We would thoroughly recommend Access to Export to any company needing support with the often daunting procedures and documentation required for foreign trade.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Tony Hawkins".

A. J. Hawkins
Sales Director
